

FIVE REASONS

TO GO FORS

Real operators...real benefits

Today, 5,000 FORS members are benefitting from improved safety, better efficiency and greater environmental protection. Here's what a selection of FORS operators told us:

“ FORS has highlighted areas for improvement and given us the tools and training we needed to make positive changes. ”

McGee Group

“ Since joining FORS we have grown our business significantly and we have reduced all our insurance claims and developed strong relationships with the insurance industry. ”

First Choice

“ FORS has been vital in helping us improve the safety of our fleet and the training of our drivers to ensure we can demonstrate a high level of professionalism and quality to all our current and prospective customers. ”

Economove

FORS, the Fleet Operator Recognition Scheme, is a voluntary accreditation scheme for all types of vehicles that are operated on the public highway, such as heavy goods vehicles, vans, passenger carrying vehicles, cars, and powered-two-wheelers, and for the specifiers that 'buy-in' their transport requirements.

As more and more specifiers demand proof of best practice from their transport suppliers, FORS accreditation puts you in the shop window for new business.

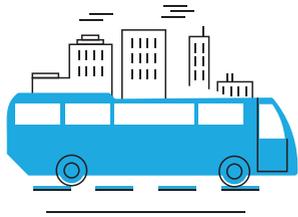

HOW TO JOIN FORS

To become a FORS member, simply complete the online registration form or call for further information:

Five key benefits of FORS accreditation

1. STAND OUT FROM THE CROWD

If you were a transport buyer required to choose between two operators, who would you appoint? Would you select the one whose safety record and environmental practices you knew nothing of? Or the one whose FORS accreditation proved a commitment to good practice in all aspects of the business, including road safety, sustainability issues and many other aspects of corporate social responsibility? Who's going to win the new business? It's a no-brainer for the transport buyer.

2. IMPROVE YOUR ROAD SAFETY RECORD

Dedicated FORS Professional training equips your managers and drivers with the skills and knowledge to improve their work related road safety and to reduce the risk of collisions with other motor vehicles and, crucially, vulnerable road users.

Become FORS accredited and access safety specific tools, guides and training courses, that help you improve your work related road safety.

In 2019, 24 per cent of members reported a reduction in the cost of their annual fleet insurance as a result of joining FORS.

Data taken from 450 respondents to the 2019 FORS Satisfaction Survey

3. REDUCE FUEL CONSUMPTION; INCREASE EFFICIENCY

FORS Professional provides classroom training and eLearning modules for managers and drivers covering environmental best practice. FORS also provides best practice toolkits helping to put you one step ahead of the competition. Expert advice on the latest technologies and systems will provide tangible efficiencies. Dedicated driver training will promote defensive, more economic driving, leading to reduced fuel costs.

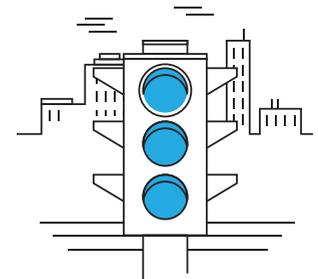

In 2019, FORS Gold accredited members showed a 12% improvement in fuel usage, 14% reduction in CO₂, 32% reduction in incidents reported and 49% reduction in the number of PCNs received.

Based on data taken from 181 FORS Gold case studies submitted in 2019

4. ENSURE COMPLIANCE

Make use of FORS Affinity Partner products to meet your legal obligations and ensure you remain compliant with the FORS Standard.

FORS Fleet Management System, powered by FleetCheck, delivers a comprehensive platform enabling complete vehicle, driver and organisation management.

Operators have a duty-of-care by law to check their drivers' competency and capability. FORS Driver Licence Checking Service, delivered in partnership with Licence Bureau Limited, provides preferential rates to members.

5. GREATER INDUSTRY 'KNOW HOW' AND NETWORKING OPPORTUNITIES

With fortnightly eNews, monthly training eNews and a regular magazine, FORS members receive insider knowledge on how the scheme is changing the industry and where potential opportunities lie for you. Through funded and discounted FORS Professional training, managers and drivers will have the chance to meet, swap tips and network with other industry professionals.

What's included in FORS?

FORS Affinity Partner products - discounted rates
